Assistant Commissioner for Patents,
Washington, D.C. 20231

Sir:

Please amend the above-identified International Application before entry
into the National stage before the U.S. Patent and Trademark Office under 35 U.S.C.
§371 as follows:

In the Specification:

Please replace the Specification of the present application, including the
Abstract, with the following Substitute Specification:

SPECIFICATION

TITLE

**MOBILE STATION, BASE STATION AND METHOD FOR DATA
TRANSMISSION IN A MOBILE RADIO SYSTEM**

BACKGROUND OF THE INVENTION

Field of the Invention

The present invention relates to a base station, a mobile station and a
method for data transmission in a communication system, in particular in a CDMA
mobile radio system, where the data, structured in frames, is transmitted such that a
mobile station is able to perform other functions; in particular, to carry out tests
using a reception device, during one or more interruption phases in which it
interrupts the reception (of the previous source or of the data from the base station)
